Technologies	GitHub, HTML, CSS, Tailwind CSS, React.js, Redux.js, Next.js, Node.js, Express.js, MongoDB, SQL
Soft Skills	Excellent communication skills, Strong teamwork abilities, Adaptability and Flexibility.

PROJECTS

[VR Hub](#) (React.js)

- VR Hub provides a comprehensive platform for developers, designers, and enthusiasts to build immersive VR apps easily.
- It offers intuitive tools and customizable features, streamlining the entire VR app creation process from concept to deployment.

Eflyer Ecommerce Store (React.js)

- Developed a dynamic e-commerce website with login, shopping cart, and user authentication.
- Created three distinct stores (Fashion, Jewellery, Electronics) with categorized products and seamless navigation.

Arkan-Group Website: Full Stack Semester Project (React.js)

Medicine Recommendation System

- Machine learning recommender systems simplify patient data for better decision-making.
- A hybrid system personalizes doctor recommendations, improving care continuity and reducing costs.

AU-Verse (Flutter Mobile App)

- University apps provide easy access to schedules, grades, maps, faculty contacts, and event calendars for students, faculty, and staff.
- They streamline communication and organization, enhancing the overall university experience.
